

international student workshop

local + global

innovative symbioses

Hosted by UPC BarcelonaTech - Vallès School of Architecture ETSAV
Friday 16 -Thursday 21 July 2016

Participating Institutions

School of Architecture, Aristotle University of Thessaloniki, Greece
School of Architecture, National Technical University of Athens, Greece
School of Architecture University of Sapienza, Rome, Italy
Vallès School of Architecture, UPC BarcelonaTech, Barcelona, Spain
School of Architecture, University of Cyprus, Nicosia, Cyprus
School of Architecture, Institute Manuel Teixeira Gomez, Portimão, Portugal
School of Architecture, University of Beira Interior, Covilhã, Portugal

Can architectural experimentations contribute to the enhancement of the role of the symbiosis of the local and the global in contemporary architecture? Can architecture contribute to the creation of a contemporary narrative on the 'glocal' which will glorify the simultaneity and co-presence of the particular with the broadly accepted, of the specific with the universal, of the emergent with the imported? How can architecture promote the inspirational power of the local to be supported or amalgamated by the know-how of the global?

ARCHI-MED-ES project will be able to reimburse students travel expenses to the amount of 275 Euros and their accommodation expenses for 5 students of the 4th or 5th year of studies from each participating Institution.

Interested students have to submit a short portfolio, together with their english language certificates and an official record of grades from School's secretariat, via e-mail to Prof. Rosalba Belibani (rosalba.belibani@uniroma1.it) and to Paola Fabiani (paola.fabiani@uniroma1.it) until May 30, 2016.
